SUMMARY

Frontend Engineer with 3+ years of experience across SaaS, mobile, and full-stack development using JavaScript, TypeScript, Vue.js, React.js, and Flutter. Promoted from Junior to Mid-Level Frontend Engineer at Dibasys, where I helped build Swift Checkin, a labour cost management SaaS platform for the Australian construction industry. Skilled in Agile Scrum environments, real-time features with Pusher, and translating complex technical requirements into scalable, user-centric solutions. Experienced in leveraging AI-assisted development tools (Gemini, Copilot, Claude, ChatGPT) to accelerate refactoring and delivery speed. Proven track record of boosting frontend performance by 50% and delivering seamless REST API integrations with MYOB, Xero, and Autodesk.

WORK EXPERIENCE

Mid-Level Frontend Engineer — Dibasys Pvt Ltd, Kottayam, Pala

Apr 2025 – Jul 2026

- Promoted to Mid-Level Frontend Engineer, leading Vue.js and Nuxt.js frontend architecture for Swift Checkin, a labour cost management SaaS platform for the Australian construction industry.
- Drove software delivery within an Agile Scrum framework, facilitating sprint planning, task estimation, and daily stand-ups that increased on-time project delivery by 25%.
- Developed real-time features and in-app notifications using Pusher, improving data freshness and user engagement across the platform.
- Presented frontend performance optimization strategies to senior management, achieving a 50% increase in page load speed.
- Authored technical documentation and internal guidelines for AI-assisted development tools (Gemini, Copilot, Claude, ChatGPT), improving team refactoring efficiency by 35%.
- Performed code reviews and supported production deployment activities, reducing post-deployment bugs by 20%.

Junior Frontend Engineer — Dibasys Pvt Ltd, Kottayam, Pala

Dec 2023 – Mar 2025

- Built responsive, reusable frontend components using Vue.js and Nuxt.js for core SaaS features including timesheets and invoicing.
- Developed and maintained a Flutter mobile application for Android and iOS covering employee check-in/check-out and geofence-based attendance tracking.
- Integrated REST APIs and third-party services, including Xero, MYOB, and Autodesk, into core product workflows.
- Designed UI/UX for web and mobile applications in Figma; built and maintained the company website using Nuxt.js and Webflow.
- Created marketing and promotional videos for product demonstrations and campaigns, supporting go-to-market efforts.
- Identified and resolved 15+ production-critical bugs per quarter, ensuring application stability for end users.

Software Developer — Codea Technologies Pvt Ltd, Kochi

Jan 2023 – Nov 2023

- Collaborated with stakeholders to define requirements for an IT Help-desk web application, improving ticket resolution efficiency by 20%.
- Presented database optimization findings to the backend team, reducing data retrieval time by 15% through streamlined PostgreSQL queries.
- Led design reviews for responsive, mobile-first interfaces, increasing cross-device user engagement by 30%.

MEARN Stack Developer (Intern) — Luminar Technolab, Kochi

Oct 2022 – Jan 2023

- Demonstrated project milestones by presenting 5+ full-stack web applications to project mentors, ensuring all end-to-end API integration requirements were met.
- Facilitated feedback sessions with team leads to refine responsive layouts using Bootstrap, reducing development time for new prototypes by 40%.

EDUCATION

BSc Electronics — Mar Augusthinose College Ramapuram (MG University)

May 2019 – Apr 2022 | CGPA: 7.4 / 10
